**The Bison PD 1050 IBC** is designed and built to meet the stringent regulations controlling the Transportation and Storage of Dangerous Goods. It is an ideal solution to liquids handling problems, and has been designed to meet market demand for a high quality, low cost pressure discharge IBC

The rugged cylindrical body has been manufactured from BS43A carbon steel, mounted on a removeable and replaceable pressed steel base.

Bison IBC Ltd is the country's leading IBC specialist. We offer a full range of metal and plastic IBC containers, UN certified where required and suitable for the safe transport of all types of hazardous semi-bulk liquids, slurries and free-flowing solids. A full range of spares are stocked. Bison IBC also offers a full clean, repair and refurb service, including testing to UN standard. All IBCs managed by Bison benefit from the Bison log book, which forms a record and audit trail of testing and repair.
